VENUSTM
WATER HEATERS

Magma Plus water heaters is an excellent product that has been designed & built to last. It comes with a durable & corrosion resistant porcelain enamel tank. It is designed to be Hard Water Proof with Scaleguard Technology. An updated and pleasing design with metallic finish colours lends this model a new grace & charm to blend with your bathroom decor.

Porcelain Enamel Glass Lined Tank: Manufactured in a modern, automated plant using European Technology. Protects the tank from rust and corrosion.

Glasslined Double Ceramic Heating Elements: Shock-proof, hard water proof, long-lasting (except 6 litres)**.

Incoloy 800 element: Withstands temperatures up to 1000°C. Long lasting, even in case of hard water. Reduces scale formation. Prevents premature element failure. (Horizontal models).

Tubular Element : High quality copper heating element for long life and performance (for 6 litres only).

PUF Insulation: 3cm extra thick (PUF) insulation keeps the water hot for a much longer time and reduces energy consumption.

8 bar pressure: Suitable for pressure pumps and multi-storey buildings.

Scale Guard Technology : In Ceramic heating element heat is transferred over a much larger surface area, which reduces the stress on heating element, lowers watts density/sq.cm and ensures less scale deposition on heating element.

Capillary Thermostat : High precision and externally adjustable thermostat enables the user to set temperatures of his choice.

PP Outer Body : Corrosion free. Shock proof. (Upto 25L Models).

Capillary Thermal Cutout: Backup safety device. Cuts off power at 95°C. Prevents overheating (vertical models).

Flexi Mount: Flexible mounting options (Horizontal Model) Wall/Floor mounting. Left/right side opening options available - ideal for modern apartments.

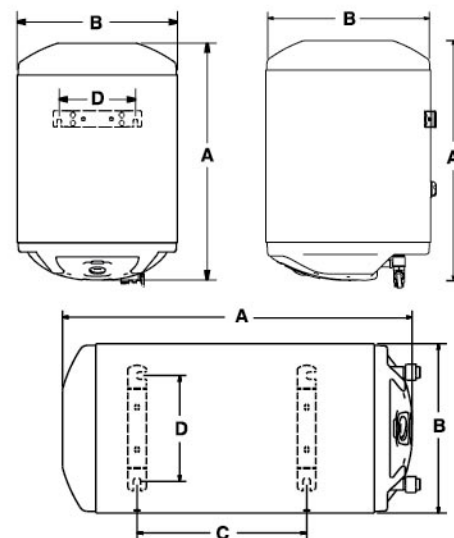

Temperature Display : The display will real - time display the current temperature
