

A Blend of Quality, Technology & Innovation

ABOUT VENUS

VENUS HOME APPLIANCES (P) LTD., manufacturers of Venus Water Heaters for 55 years is a market leader and pioneer in the Water Heater industry. Venus is one of the leading brands of water heaters in India and stands for Quality, Reliability and Performance.

Appliances that provide a continual supply of hot water are called water heaters or Electric geysers. Venus Home Appliances is the leading manufacturer of water heaters and geysers in India. Venus has been providing a wide range of water heaters in India that include electric instant water heaters, electric storage water heaters, gas water heaters, solar water heaters and heat pump water heaters. Venus Home Appliances strives to design, manufacture and supply water heaters and accessories to national and international standards. Venus has got ISO 9001 certification from BVQI and is ISO14001:2004 and BSOHSAS 18001:2007 certified; a measure of its commitment to quality.

LARGEST EXPORTER

VENUS HOME APPLIANCES (P) LTD., manufacturers of Venus Water Heaters for 55 years is a market leader and pioneer in the Water Heater industry. Venus is one of the leading brands of water heaters in India and stands for Quality, Reliability and Performance. 100% reliable, Venus water heaters have sleek exteriors that only complement their performance.

With a Presence in more than 22 countries across the World, Venus Home Appliances is the No.1 in Exports with reference to the Water heater Industry.

NATIONAL & INTERNATIONAL CERTIFICATION

Winner of the 'National Award for Quality Product' in 2000 by Govt. of India

Twice winner of the 'Tamil Nadu Quality Award'

55 year market leader and a pioneer in the water heater industry

ISO 9001 & 14001 Certification from BVC

WARMTH FOR LIFE

Venus water heaters are built with state-of-the-art technology and come equipped with the most innovative features.

- STORAGE WATER HEATERS

- INSTANT WATER HEATERS

- TANKLESS WATER HEATERS

- GAS WATER HEATER

VENUS TECHNOLOGY

PORCELAIN ENAMELING

Porcelain Enameling - an European technology that creates a vitreous enamel layer which protects the heater from rust and corrosion. This technology was introduced in India first time by Venus. Porcelain Enamel is a glass - like coating which is fused at 830°C to create a mechanical bond with the metal substrate which increases the durability of the heater.

Porcelain enamel tanks are widely used internationally and are approved for use in water heaters by BIS, IEC, DIN(German), UL(US) standards. In India, VENUS is the first manufacturer to start enameling with Dry Powder Enameling system which is superior to other type of coatings.

UNIQUE FEATURES

PERFORMANCE

Porcelain Enamel Glass Lined Tank: Manufactured in a modern, automated plant using European Technology. Protects the tank from rust and corrosion.

99.9% pure copper tank: For long life and corrosion free performance.

Glass lined Incoloy 800 element: Withstands temperatures up to 1000°C. Long lasting, even in hard water. Reduces scale formation. Prevents premature element failure.

Glasslined Double Ceramic Heating Elements: Shock-proof, hard water proof and long-lasting.

Hard water protection: Low density, Glasslined elements for long life in hard water areas.

8 bar pressure: Suitable for pressure pumps and multi-storey buildings.

6 bar pressure: High Working pressure that is double that of ordinary water heaters.

Flexi Mount: Flexible mounting options (Horizontal Model) Wall/Floor mounting. Left/right side opening options available - Ideal for modern apartments.

ENDURANCE

10 Years* Guarantee: On Copper tank

7 Years Guarantee:** On Porcelain Enamel GlassLined Tank

4 Years* Guarantee:** On Heating Element

DIGITAL

IoT Empowered : W/H Operation from across the World

Wi-Fi - Enabled : Lets you Set, Schedule & view at your convenience

Smart Mode: Three Energy Saving Smart Shower Modes

Digital Display: For visual indication of temperature.

Multi-function Display: For visual indication of temperature and program options.

Temperature Display : The display will real - time display the current temperature.

SAFETY

Multi-function valve: Acts as pressure release valve, non-return valve, drain valve, expansion valve and vacuum release valve.

Sacrificial Magnesium Anode: A special device to enhance the corrosion protection of the tank by means of "Cathodic action".

Triple Safety : Multi-function Safety Valve, Capillary Thermostat & Thermal cutout.

IPX4 : Resistant to water splashes from any direction.

ENERGY SAVINGS

5 Star rating for more energy savings.

3cm Thick Polyurethane Foam (PUF) insulation: Reduces heat loss and keeps water hot for much longer.

Power meter: To show actual energy consumption for daily, weekly, monthly, and Annually.

* } Applicable on select models only. Note: For exact features refer to product page.

Porcelain Enamel Tank

Manufactured in a modern, automated plant using European Technology. Glass lined coatings protects the tank from rust and corrosion.

2mm Thick Mild Steel Tank

Surface Treatment by
Shot Blasting

Porcelain Enamel Coating
250 - 400 μ Thick

Types of Heating Element

We use different types of heating elements in our water heaters. They are designed for reliable & energy efficient performance in all types of water conditions. We have higher grade heating elements for hard water areas to resist scale deposits & premature failure. Ceramic Heating Element – hardwater proof and shock proof, Glasslined Incoloy Heating Element, Copper Heating Element.

Ceramic
Heating Element

Glass lined Incoloy
Heating Element

Super Heavy Gauge
Copper Element

Scale Guard Technology

In Ceramic heating element, heat is transferred over a much larger surface area, which reduces the stress on heating element, lowers watts density/sq.cm and ensures less scale deposition on heating element.

Heat Retention Technology

Redesigned PUF insulation (upto 3cm thick PUF) - 360 degree coverage ensures maximum heat retention. No thermal bridge the tank and the external housing, thereby enabling upto 16% lower thermal losses.

Environmental Friendly Initiatives

Venus Water heaters have been continuously innovating to move to alternate packing solutions like column air packaging, instapak etc., replacing Thermocol packing, to become more environment friendly.

Our Water heaters have CFC/HCFC Free Insulation that has Low Global warming potential and Zero Ozone depletion potential. This ensures minimum damage to the ozone layer and minimum impact on global warming.

We use dry Enamelling process that uses less amount of water and generates lesser waste.

**Low Global
Warming**

**Ozone Friendly
