

QUARTZ HEATER

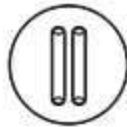

This noiseless heater is designed to keep you warm with double heat settings and is easily portable. Quartz heaters work on the principle of radiation of heat, uses infrared rays to radiate the heat to the surrounding area.

The energy efficient heater has twin quartz tube for direct heating and a heating indicator along with a safety tip over switch to cut off power, giving the best choice of use.

FEATURES

Elegant Design

Twin Quartz Tubes

2 Convenient Heat Settings
(400W/800W)

Tip Over Safety Switch

Model No: QH800
