Porcelain Enamel
Glass Lined Tank

3.5cm Thick
PUF Insulation

Introducing VECTRA, a matchless beauty with one of its kind square design that matches the elegance of your bathroom interiors. Optimum performance with Porcelain Enamel Glasslined tank, this beauty gives long life and lower energy consumption. This unique model comes with a 3.5cm PUF insulation ensuring better heat retention.

Porcelain Enamel Glass Lined Tank: Manufactured in a modern, automated plant using European Technology. Protects the tank from rust and corrosion.

Glass Lined Incoloy Element: Withstands temperatures up to 1000°C. Long lasting, even in hard water. Reduces scale formation. Prevents premature element failure.

Hard Water Protection : Low density, Glasslined element for long life in hard water areas.

Compact Form: Square design - The Unique square design adds a class of elegance for the bathroom interiors

Triple Safety : Multi-function Safety Valve along with Capillary Thermostat & Disc Thermal cutout

3.5cm Thick PUF Insulation: Reduces heat loss and keeps water hot for a much longer time.

8 bar Pressure: Suitable for pressure pumps and multi-storey buildings.

Sacrificial Magnesium Anode: A special device to enhance the corrosion protection of the tank by means of "Cathodic action".
