

Take home the Breeze!

LET THERE BE AIR!

Over the years, Venus has always pushed the boundaries and brought to you the best of innovation and technology in water heaters. Be it the range, the features or path breaking technology, we have ensured that our products make your lives more convenient.

With the spirit of innovation and quality always at our core, Venus now presents its range of reliable, durable and high speed fans that

- Ceiling Fans
- Table Fans
- Wall Fans

- Farrata Fans
- Pedestal Fans
- Exhaust Fans

BLDC Fans COLLECTION

The New revolutionary Fans with Advanced Power Saving technology for trouble free performance and easy operation. High Energy Savings, Guaranteed Performance and Super Convenience.

Why BLDC Fans ?

BLDC (Brushless DC) motors revolutionize energy efficiency with their advanced design, minimizing friction and energy loss. These motors boast superior performance, delivering precise control and significantly reducing power consumption.

BLDC vs Regular Fan	BLDC	Regular Fan
 Power Consumption	30W	75W
 Usage per day in Hours	16	16
 Energy Consumption per year in kWh	175	438
 Electricity cost per Annum is Rs.	1226	3066

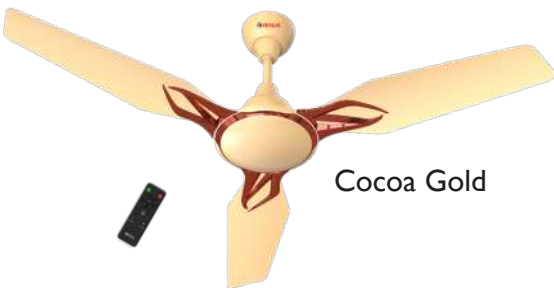

**Annual Savings
per Fan for a year
Rs.1840.00**

Sonic BLDC

Sonic BLDC Fans offer an exceptional solution for those seeking energy-efficient cooling options. With a remarkable 60% energy savings compared to normal fans, they not only reduce electricity bills but also contribute to a greener environment. Beyond their energy-saving benefits, Sonic BLDC Fans boast a stunning design coupled with advanced technology. This combination not only enhances the aesthetics of any space but also ensures optimal performance and functionality.
